THE MERRIMACK JOURNAL

 Is a 36-column NEWSPAPER, devoted to the interests of the State of New Hampshire in general, and Merrimack County in particular, with proper respect for its owner's pocket-book. It is independent, and has the courage of its convictions, on all questions, social, civil, religious and political, with a decided tendency toward a broad and liberal platform for each and all. Its more than 6000 readers insist they can't keep house nor board without it, and they wish the borrowers and swappers would subscribe for it. It contains, on an average, each week, 520 inches of news, State, County, Local, and General, as well as entertaining and instructive reading, a weekly exposition of the International Sunday-school lesson, that you may go well-equipped to church, all phases of the temperance question, Grange news and notes, and other things too numerous, etc., [Chestnut,] but U want them all. Send us \$1.25, and if you don't get your money's worth in a very short time send us a postal and we'll throw in a few chromos.  Don't forget us when you want any kind of JOB PRINTING—from a visiting card to a mammoth poster, or an elegant book,—for we don't take a back seat for any office in the State. 

Yours, sincerely, faithfully, *THE MERRIMACK JOURNAL.*

*Remember when in want of any supplies for
your family that*

Report of School Board.

As may be seen by reference to the Financial Report, \$1,405.89 has been expended for school purposes the past year. \$1036 of this represents the amount that, under the apportionment of 1883 was required by law to be raised each year for the four years next following that apportionment. We then paid \$2.96 on every \$1000 of the State taxes. Under the apportionment of 1887 our rate is \$2.78 on every \$1000. We shall now be required to raise only \$963, each year until the next apportionment. This decrease in our rate, and consequent decrease in our school money, is owing to the fact that while the valuation of Andover has remained relatively nearly stationary, other towns and cities have increased in valuation and so pay a larger proportion of the public taxes. Under the apportionment of 1876 our rate was \$3.32, school money \$1,162; under 1879, rate \$3.31, school money \$1,156; under 1883, rate \$2.96, school money \$1,036; under 1887, rate \$2.78, school money \$963. For several years past we have had no literary fund nor dog tax used for school purposes this, with the railroad tax, which we no longer have, amounted to about \$200 yearly. It needs no argument to show that if we are to have as much school money in the future, as in the past, we must raise it at our town or district meetings.

The school funds have been so distributed under the new law that the scholars in each district, with the exception of those attending the primary department at Andover Centre, have received twenty weeks of school. As the prudential committees of certain districts at the time the new law went into effect had in their hands or due them from the town, money set apart for such districts, we have this year expended that money so far as it was practicable to expend it, in accordance with the provisions of an Act passed by the last Legislature, East Andover receiving one, Beech Hill two and Boston Hill two weeks additional schooling. \$20 of the \$60.75 due the Andover Centre district has been expended for the benefit of the district scholars attending Proctor Academy, leaving \$40.75 in the hands of the School Board, which should be appropriated for the primary department in that district. Owing to the condition of the school-house in No. 9, the \$5 due that district was not expended, but remains in the hands of the Board to be there kept until you shall vote to raise money for the repair of that house, or Providence shall send a mild and favoring season so that the children in No. 9 may receive its benefits without risk to health and life.

What we said in our last report in relation to school-houses is true today. We had no money for repairs, except the 5 per cent. allowed by the law from the general school funds. The house at Andover Centre ought to have been re-shingled more than a year ago. Repairs are needed on other houses. One hundred dollars, at least, should be raised for this purpose or we must suffer valuable property to become dilapidated and unsuitable for proper use.

No disturbances have occurred in any school and no complaints have been brought to the attention of your committee. We have had excellent teachers, who have given us earnest, faithful work.
